

# Call For Papers

## Second National Conference on Innovation in Data Engineering and Artificial Intelligence

**15-16 April  
2027**

09:00 AM – 05:30  
PM (GMT)

### Theme

#### **Intelligent Systems for a Sustainable and Trustworthy Digital Future:**

Emphasizes AI, data engineering, security, and ethical technologies shaping resilient societies.

### Speakers

#### **Artificial Intelligence**

Pr. Chikh Mohammed Amine  
– University of Tlemcen,  
Algeria

#### **Wireless Communication**

Pr. Arslan Huseyin – Istanbul  
Medipol University, Turkeyie

### Topics

- Next-Generation Artificial Intelligence – Deep learning, reinforcement learning, and AI applications in engineering.
- Autonomous and Intelligent Robotics – Smart robots, drones, and AI-guided machines.
- AI-Driven Manufacturing & Industry 4.0 – Smart factories, predictive production, and automated quality control.
- Advanced Materials and Smart Components – Nanomaterials, metamaterials, and adaptive systems.
- Additive Manufacturing & Rapid Prototyping – 3D printing, hybrid manufacturing, and agile product development.
- Digital Twins & Simulation-Based Engineering – Real-time monitoring, virtual prototypes, and predictive modeling.
- Human-Centered AI and Responsible Engineering – Industry 5.0, ethics, safety, and AI supporting human creativity.

### Important Dates

Abstract Submission  
Deadline

**October 7, 2026**

Notification of  
Acceptance

**February 1, 2027**

Full Paper  
Submission

**February 25, 2027**

Early Bird Registration  
Deadline

**March 15, 2025**

### Registration Fee

#### **OVERSEAS PARTICIPANT**

Audience **Free**

Presenter **10000DA**

Student **8000DA**

#### **LOCAL PARTICIPANT**

Audience **Free**

Presenter **8000DA**

Student **6000DA**

### Publication Opportunity

Selected papers invited to submit As  
a book chapter in IGI Global with  
possibility of scopus indexing
